## INTRODUCTION

*This whitepaper outlines the key features, use cases, and technical details of the ABG token, along with its team composition, roadmap and tokenomics.*

*We're introducing the ABITCOINGOLD (ABG), a unique project that combines the best parts of regular systems and new blockchain systems. Our goal is to connect these two worlds smoothly, giving you the benefits of both: strong security, the ability to handle a lot of things, and clear and honest transactions. In this whitepaper, we'll explain our plan for a future where the freedom of blockchain and the trustworthiness of regular systems work together, opening up lots of new possibilities for businesses and people around the world.*

Founded in 2021, ABITCOINGOLD (ABG) is a cryptocurrency that provides practical services to users globally by bridging decentralized and centralized systems. ABG operates similarly to Bitcoin, an asset that can be securely stored, widely accepted, and recognized as valuable by society.

ABG presents clear and practical utility in its mission to disrupt and enhance existing industries and processes within the crypto space. With a highly limited supply of **9 million tokens**, it not only preserves value and scarcity but also has the potential for long-term price appreciation. This fosters confidence in its sustainability, enabling users and investors to make informed decisions about ABG's future value and supply dynamics.

The ABG team holds the view that scarcity can incentivize individuals to hold and invest, thereby offering advantages to long-term holders. Additionally, this scarcity might play a role in enhancing economic stability by mitigating the potential for rapid currency devaluation or collapse. ABG token strives to reach its initial target market price of \$25 per token.

To enhance transaction efficiency and offer users more options, the ABG team has strategically decided **to bridge 50% of the total supply to the Polygon Network.** This bridging aims to strengthen and optimize the ABITCOINGOLD ecosystem while offering you the flexibility to choose your preferred network.

**Network Integration:** Integrating the Polygon network as an additional option for ABG users offers enhanced transaction speed, lower fees, and an improved overall user experience. With Polygon's scalability, low transaction costs, and compatibility with Ethereum, ABG users gain flexibility and accessibility, allowing them to choose the network that best aligns with their preferences and requirements.

Using cross-chain technology, ABG employs a bridge to facilitate interactions with other blockchain networks. ABITCOINGOLD potentially provides users with the flexibility to choose networks with lower transaction fees. The competition among blockchains for lower fees can benefit the community by offering more cost-effective options for their transactions. Additionally, it can contribute to the overall network efficiency and scalability of the project.

### **How does ABG work?**

ABITCOINGOLD provides a secure and transparent platform for digital transactions, utilizing a hybrid system that blends elements of both centralized and decentralized systems. This approach leverages blockchain technology alongside the conventional banking system, with the aim of ensuring the integrity and security of the financial ecosystem, all while adhering to specific standards. ABG's method of connecting decentralized and centralized systems involves the provision of ABG ATM Machines and ABG ATM cards across eight different countries.

## MISSION

Our mission is to seamlessly blend the reliability of centralized systems with the innovation of decentralized technology. We envision a future where security, efficiency, and transparency coexist, offering users the best of both worlds. This bridge will unlock new possibilities, reduce costs, and make financial services more accessible, ultimately reshaping the future of technology and finance.

## VISION

We envision a future with ABITCOINGOLD where the strengths of centralized and decentralized systems unite, creating a seamless and inclusive digital landscape. Our vision is to ensure security and transparency while fostering innovation and making practical financial services accessible to everyone through ABITCOINGOLD. We anticipate a future where the distinctions between these systems blur, ushering in a more efficient, cost-effective, and reliable global ecosystem. Our mission is to lead this transformation, reshaping the world of technology and finance on a global scale with the impact of ABITCOINGOLD, ultimately benefiting individuals and businesses alike.

## OUR TEAM

ABITCOINGOLD is driven by a team of individuals who are perfectly aligned with the project's vision and goals. Our hardworking team members are continuously striving for improvement, research, ensuring that ABG remains an exceptional project in the crypto space. ABG is supported by a team of committed individuals who are united by a common vision and objective: to create an outstanding project through ongoing enhancement, security, and bringing the best to help you experience an amazingly modern and advanced life.

## OUR SERVICES

**1. Mobile App:** Our intuitive mobile application offers effortless access to the full range of services offered within the ABG ecosystem. Featuring an integrated cryptocurrency wallet, users can easily handle bill payments, acquire mobile credits, engage in online shopping, convert FIAT currency to cryptocurrencies, and conduct cryptocurrency transfers. The inclusion of an advanced AI system within the app guarantees a smooth and user-friendly experience, and it will be accessible on both Android and iOS.

## MOBILE APP FEATURES

**a. Secure Authentication:** ABG team will implement a strong and reliable authentication methods, such as password-based login, biometric authentication (fingerprint or facial recognition), and two-factor authentication (2FA), to ensure that only authorized users can access the ABG mobile app.

**b. Secure Data Storage:** ABG mobile app has a feature to store user data securely by using secure databases and implementing proper access controls. We consider using techniques like encryption and tokenization to protect sensitive information like user credentials and personal data.

**c. Secure Payment Integration:** In the ABG mobile app, we employ encryption techniques, authentication processes, and security protocols to prevent malicious actors from intercepting or tampering with payment data during transmission or storage. This ensures robust security for customer data and trustworthy payment processing.

**d. Regular Security Audits:** We will conduct regular security audits and penetration testing to identify and address any vulnerabilities or weaknesses in the app's security infrastructure.

## MOBILE APP ADVANTAGES

- With a built-in crypto wallet, users can conveniently pay bills, purchase mobile loads, online shopping, convert FIAT to cryptocurrency and send or transfer cryptocurrencies.
- The advanced AI system integrated into the app ensures a seamless user experience.
- By linking their ABG wallet to the ABG ATM card, users can access their crypto assets and utilize them for various transactions.
- **Fast Transaction:** Experience lightning-fast transactions with our mobile app. Our cutting-edge technology and optimized processes ensure that your transactions are executed swiftly and seamlessly.
- With just a few taps, you can easily convert your ABG to fiat currency and into the crypto of your choice, opening up a world of possibilities in the digital asset space.
- Every time you make any transaction using your ATM card linked to the ABG mobile app, you will receive a real-time notification on your mobile device.

## ABG ATM Notifications

Whenever you successfully withdraw funds using your ATM card connected to the ABG mobile app, you'll instantly receive a real-time notification on your mobile device, ensuring a smooth and secure method to stay updated on your ATM transactions.

This notification will provide you with essential details about your transaction, including:

- Confirmation of a successful withdrawal
- Date and time of the transaction
- ATM location
- Amount withdrawn
- Updated account balance

No need to check your account constantly or worry about unauthorized transactions. With ATM Withdrawal Notifications, you'll instantly know when a transaction occurs, helping you stay in control of your finances. Trust ABG's mobile app for convenience and security!

**2. Coin Deposit Machine (ABG ATM Machine):** We have developed a state-of-the-art Coin Deposit Machine, also known as the ABG ATM Machine, as a vital tool to connect the banking system of the ABG project. This innovative device allows users to both withdraw and deposit cryptocurrencies with ease. Whether you're looking to convert your crypto into traditional currency, securely deposit funds into your cryptocurrency wallet, or engage in any other cryptocurrency-related transactions, our ABG ATM Machine is the perfect solution.

The ABG ATM machine will provide a receipt as proof of your transaction.

## ATM MACHINE ADVANTAGES

- ABG functions as a bridge between decentralized and centralized systems, and ATM machines play a key role in bridging the gap between the crypto world and traditional financial systems. These machines enable users to effortlessly transform their digital assets into fiat currency, streamlining the transition from the decentralized cryptocurrency sphere to the more conventional economy.
- **24/7 Availability:** ABG ATM Machine operates around the clock, providing users with the flexibility to withdraw and convert their cryptocurrency at any time, including weekends and holidays. The accessibility of ABG ATM Machine is especially beneficial for individuals who require immediate access to funds.
- **Flexibility:** ABG ATM Machine supports multiple cryptocurrencies such as BNB, USDT, ETH, and ABG token, allowing users to withdraw and convert various digital assets into fiat. This flexibility accommodates a wide range of users with diverse cryptocurrency holdings.
- **Accessibility:** ATM machines provide a convenient and easily accessible means for individuals to convert their cryptocurrency holdings into fiat currency. They are often located in public spaces, making them readily available for use.

- **Instantaneous Transactions:** ABG ATM machine enable quick and seamless transactions. Users can withdraw their cryptocurrency and receive fiat currency instantly, eliminating the need for lengthy waiting periods or additional verification processes.
- **Privacy:** ABG ATM Machine offer a certain level of privacy for users who value discretion. By using the ABG ATM, individuals can convert their cryptocurrency to fiat without the need to disclose personal information or go through extensive identity verification processes.

### **ABG ATM Machine will be available in:**

1. Australia
2. Singapore
3. Vietnam
4. Philippines
5. Thailand
6. Malaysia
7. Dubai
8. Switzerland

**3. ABG ATM Card:** Our ABG ATM Card functions as a versatile financial tool for ABG users. By linking their ABG ATM card to the ABG mobile app, users can access their crypto assets and utilize them for various transactions. With the ABG ATM Card, you can make purchases at supported merchants, withdraw cash from ATMs, and enjoy the convenience of a traditional debit card while seamlessly integrating with the crypto world.

- **Convenience:** ABG ATM card combines the convenience of traditional payment cards with the flexibility of cryptocurrencies. It allows users to easily access their digital assets and use them for everyday transactions, just like a regular debit or credit card.

- **Seamless Integration:** ABG ATM cards are typically linked to the ABG Mobile App wallet, allowing users for seamless integration between the card and their digital assets. This means that users can easily manage and access their cryptocurrencies through a familiar payment card interface.
- **Integration with ABG Ecosystem:** Users may benefit from integration with the broader ABG ecosystem, which can include additional services, partnerships, and rewards programs.
- **Security:** ABG ATM cards offer robust security features, such as PIN codes and encryption, to protect users' funds and transactions.
- **Global Acceptance:** ABG ATM cards may be accepted at a wide range of ATMs and merchants globally, enhancing their utility for international travelers and users.

The header features a gold-bordered hexagonal shape on the left containing a stylized gold dollar sign with 'ABG' inside. To its right, the words 'TOKEN ALLOCATION' are written in a gold, sans-serif font on a dark blue background.

# TOKEN ALLOCATION

27.78%

## LOCKED SUPPLY

2.5 million (27.78%) ABG tokens are locked for 10 years. 0.5% will be unlocked every year.

1.04%

## CHARITY

1.04% of the total supply (93,600 ABG tokens) for charitable initiatives.

10%

## TEAM

10% of the total supply (900,000 ABG tokens) to the team for their efforts and contributions.

9.01%

## DEVELOPMENT

9.01% (810,900 ABG tokens) This remaining supply can be used for various purposes such as future development, partnerships, or community initiatives.

20.87%

## LIQUIDITY

20.87% of the total supply (1,878,300 ABG) tokens to liquidity. Allocating a portion of the token supply to liquidity helps ensure healthy market liquidity.

10.43%

## MARKETING

10.43% of the total supply (938,700 ABG tokens) for marketing efforts. Allocating tokens for marketing purposes helps promote the project and increase awareness.

15.65%

## REWARDS

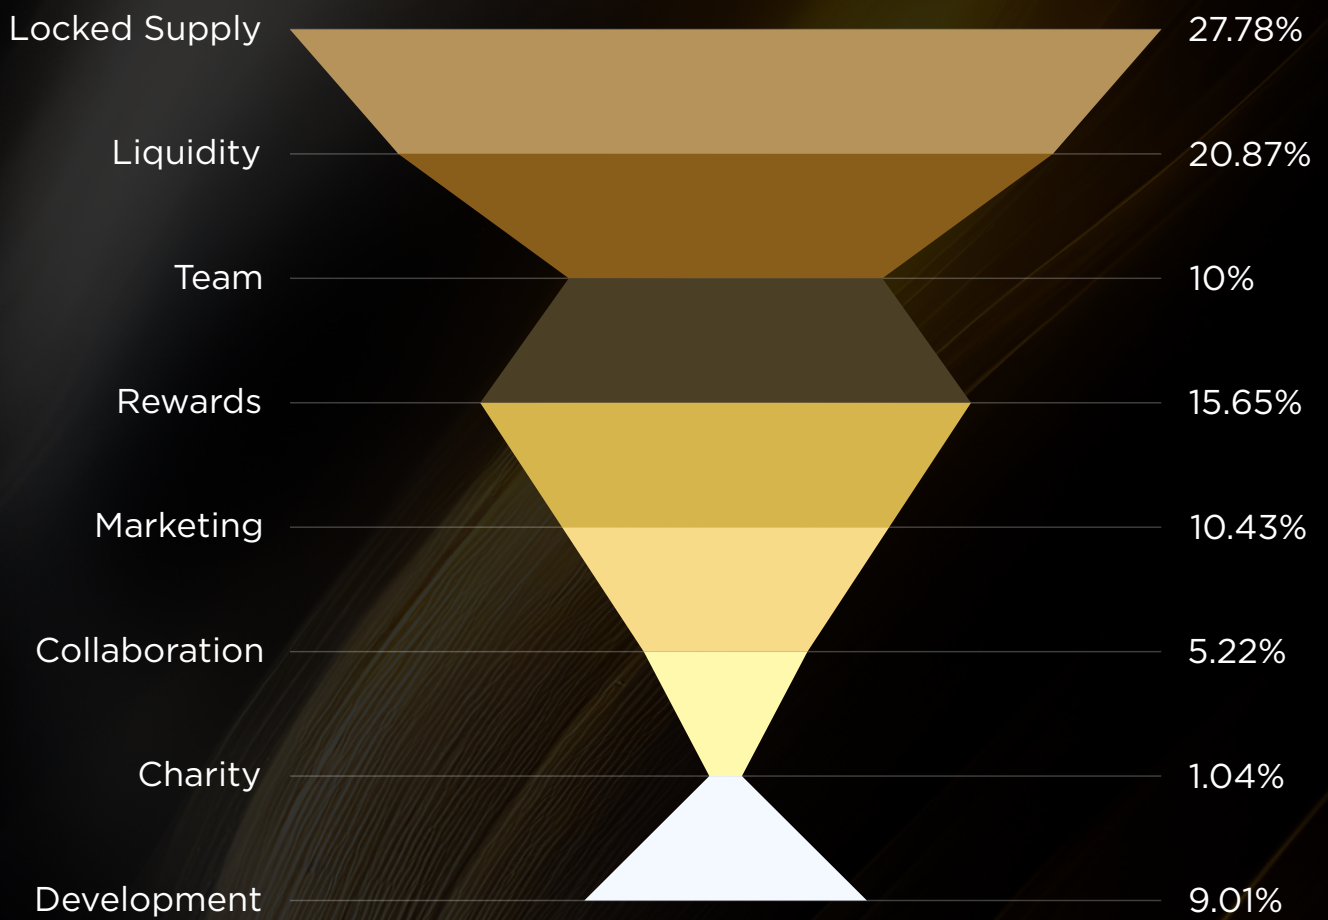

15.65% of the total supply (1,408,500 ABG tokens) for rewards. To incentivize various activities within the ecosystem.

5.22%

## COLLABORATION

5.22% of the total supply (469,800 ABG tokens) for collaboration purposes. Allocating tokens for collaborations and partnerships helps foster growth and innovation.

***Please note the specific allocation percentages provided above are based on the project's specific goals and requirements.***

## ABG TOKEN DETAILS

Token Name: ABITCOINGOLD COIN

Ticker: ABG

Decimal: 8

Total Supply: 9 Million

Main Network: Binance Smart Chain (BSC)

BSC Contract Address:

0xdb2Ed8A8E53e9d0e91C65fED1DfE2edc35C3bdAa

BSC Network currently supply: 4.5 Million ABG

*50% of the total supply is migrated to Polygon Network*

Polygon Contract Address:

0xeEc7f90224df80CAa20E1c98158ede080A7EC4E9

Polygon Network current supply: 4.5 Million ABG

## OUR DOADMAP

Our roadmap outlines the strategic plan and key milestones for ABG's journey ahead. It is a dynamic guide that charts our progress and sets the direction for our project's development. Through careful planning and execution, we aim to achieve significant milestones that propel us towards our vision. The roadmap encompasses various phases, including product development, community expansion, strategic partnerships, and market penetration. By following our roadmap, we ensure transparency and provide our community with a clear timeline of our objectives, fostering trust and confidence in our project's growth and success.

# I

## PHASE 1

- Mobile App Development
- Community Building
- Collaboration / Partnership
- Marketing Online / Offline
- Official Listing on CMC and Coingecko
- Community Event

# II

## PHASE 2

- Mobile App Testing
- Trade with BNB, USDT and ABG in the ABG Mobile App
- AMA
- Collaboration / Partnership
- Marketing Online / Offline
- ABG ATM Machine Testing
- ABG Token at \$8 per token
- Unlocking 0.5% of the supply

# III

## PHASE 3

- ABG Mobile App Update
- Allowing users to link ABG ATM to the Mobile App
- Referral System
- Marketing Online / Offline
- ABG ATM Machine Installation
- ABG ATM Card Launch

# IV

## PHASE 4

1. Mobile App New Features
  - Enabling users to buy load in the Mobile App
  - Enabling users to pay bills
2. New DEX / CEX Listing
3. Marketing Online / Offline
4. AMA with the ABG CEO

## PHASE 5

1. Mobile App More Features
  - Enabling users to make online purchases through our platform's partner merchants,
  - Enabling users to Trade with other cryptocurrencies
  - Enabling users to Stake ABG
2. Partnership and Collaboration
3. Marketing Online / Offline

# V

## What does ABG have to offer?

ABG offers enduring stability, depth, and a lasting impact. It facilitates comprehensive problem-solving and innovation, leading to superior results and substantial growth potential. ABG initiatives encourage the development of expertise, collaboration, and resource efficiency, bolstering an organization's reputation and adaptability. Over time, we present opportunities to glean insights from errors, establish a legacy, and construct sustainable value. This makes it a strategic preference for individuals aiming for enduring success.

- No Investment
- No Lending
- No Staking
- No Scam
